B 1 Forest Card is regained per turn

~ Forest Plantation ~

A plantation that can stand in for the services made available through natural forests. The more of these that are developed the more humans can protect the natural forests from exploitation and industry.

B

~ Library ~

A gathering spot, and place for studying and reading the archives of history, ideas, knowledge, and entertainment made and discovered by the human experience.

B

~ Bank ~

An institution that assists societies and countries economic structures.

B

~ Housing ~

A basic human right, and an anchoring spot for people that should create safety and feelings of having a place in the world.

B 1 Geological Mineral Card is regained per turn

~ Metal Recycler ~

Reuses the materials found in geological minerals that have been mined from the earth's soil, to minimize further exploitation of its fragile nature.

B

~ Marketplace ~

A space for humans to exchange various wares, services, shaping connections, and friendships.

ROLE TOKENS

*PROGRESSION
TOKENS*

*PROGRESSION
TOKENS*

B 1 Wildlife Card is regained per turn

~ Nature Reserve ~

Nurturing and preservation of the natural habitat of a certain area. Here, the ecological life can be protected under law, helping in preventing exploitation by human industry- and market interest.

B This building makes required roles build twice as fast per turn

~ Museum ~

A collection of historical, natural, and technical objects and artworks. Experiences here can assist in the quest to do better for the future.

B 1 Water Card is regained per turn

~ Wastewater Treatment ~

Helps in removing contaminants in used water produced by the human population and their infrastructures so that it can safely return to the natural water cycle.

~FOREST~

Upholds the biodiversity of life, organism with energy through photosynthesis, and aids in taking care of the carbon dioxide in the air.

~FOREST~

Upholds the biodiversity of life, organism with energy through photosynthesis, and aids in taking care of the carbon dioxide in the air.

~FOREST~

Upholds the biodiversity of life, organism with energy through photosynthesis, and aids in taking care of the carbon dioxide in the air.

~FOREST~

Upholds the biodiversity of life, organism with energy through photosynthesis, and aids in taking care of the carbon dioxide in the air.

~FOREST~

Upholds the biodiversity of life, organism with energy through photosynthesis, and aids in taking care of the carbon dioxide in the air.

GEOLOGICAL MINERALS

Different kinds of finite ore that have naturally accumulated in rocks or sediment for a long time.

GEOLOGICAL MINERALS

Different kinds of finite ore that have naturally accumulated in rocks or sediment for a long time.

GEOLOGICAL MINERALS

Different kinds of finite ore that have naturally accumulated in rocks or sediment for a long time.

GEOLOGICAL MINERALS

Different kinds of finite ore that have naturally accumulated in rocks or sediment for a long time.

~ ANIMAL DISEASES ~

Plaques, influenzas, and viruses, are infectious diseases that can cause a number of symptoms, and even spill over between the different spieces of Earth.

1 Wildlife Card is lost this round

~ ARBORICULTURE ~

Through the study and cultivation of woody plants, arboriculture can help in gathering knowledge, and maintain a healthy balance between humans and forests.

1 Forest Card is regained this round

~ CLIMATE CHANGE ~ DENIAL

Climate change deniers in the community have won a debate resulting in a decomission of an essential building regulating human impact on nature.

One nature/human regulative building is destroyed this round

~ COMMUNITY FESTIVAL ~

Celebratory event where people gather to escape the toils of everyday life and nurture social connections, love, and adaptability amongst one another.

Nothing happens this round

~ DROUGHT ~

Can be a recurring feature in the ecosystem. But a continued anthropocentric relationship with the natural environment can be responsible for how frequently these phenomena occur.

1 Water Card is lost this round

~ EARTHQUAKE ~

Abrupt release of energy in the Earth's lithosphere which produces siesmic waves that can have devastating consequences for life in the surrounding area.

Lose 1 building this round

~ ENVIRONMENTALIST ~ SHUTDOWN

An intervention against the environmentalists hinders them from participating in aiding society.

The Environmentalist skips this round

~ FINANCIAL CRISIS ~

An umbrella term for situations where societies financial values are lost. This in turn can cause ripples in other areas connected to its infrastructure.

The Economic skips this round

~ INCREASED RAINFALL ~

Can be a seasonal occurrence where great amounts of rainfall ensue. However, if an anthropocentric worldview is not counter measured, this kind of phenomena can increase and spread to environments unfamiliar to such surge in rain.

1 Water Card is regained this round

~ LIFE FINDS A WAY ~

Life on Earth is a continuous churning of events between its different organisms and inhabitants. This sometimes takes the shape of mating season.

1 Wildlife Card is regained this round

~ POST-HUMAN ACTION ~

With the separation from an anthropocentric worldview, and a clearer focus on adaptation with Earths natural cycles, the possibilities of a more equal footing for all is revealed.

Nothing happens this round

*~ RECYCLING ~
OF
MATERIALS*

By recycling old, defunct, or unused material objects, they can be made into new materials without further exploitation of the natural environment.

1 Geological Mineral Card is regained this round

~ ROCKSLIDE ~

A rockslide is a type of landslide where a rock, on its way downward, collapses en masse, instead of in individual blocks.

Lose 1 Geological Mineral Card is this round

~ SCHOOLS OPEN ~

An invaluable institution where humans can organise and provide a learning environment for education, and involvement with a variety of theoretical, and practical subjects.

Nothing happens this round

~ TECHNICAL FAILURE ~

With advanced technologies comes technical errors, or unforeseen technological shutdowns, that have major impacts on the lives of contemporary humans.

The Technician skips this round

~ WILDFIRE ~

Uncontrollable fire that spreads fast and cause destruction for most living beings in its wake. Can be a natural feature in the ecosystem. But through a continued anthropocentric relationship with the natural environment, human action can be responsible for how frequently these phenomena occur.

1 Forest Card is lost this round

~ WORKERS STRIKE ~

Due to unreasonable working demands without sufficient compensation, workers launch a strike, refusing to do labour until a compromise has been settled.

The Social Worker skips this round

~ FIX YOUR ECONOMY ~

To help structure a financial trading system within the society a banking institution could be useful.

Build a Bank within 3 rounds

~ LUNGS OF THE EARTH ~

In order to save the natural forests of Earth, and be able to sustain housing or other human needs, you need to construct a Forest Plantation.

Build a Forest Plantation without letting the Forest Cards reach 0

~ SHELTER THE PEOPLE ~

Having enough homes for the amount of people living in the society is a must for the goals of wholesome living.

Build Housing within 3 rounds

~ KNOWLEDGE FOR ALL ~

Without the availability of reading material, free for everyone, the prospects of a well-rounded relationship between humans and their surroundings will be an even greater struggle.

Build a Library within 3 rounds

~ RESPONSIBLE ACTIONS ~

The aims to live in harmony with the environment and Earths other spieces is the goal for a sustainable future. Prove that you are capable to live up to those expectations.

Reach and/or maintain max capacity for any Affected Card within 3 rounds

~ HEALTH IS WEALTH ~

To sustain the health amongst the people, and their possibilities to exchange wares and services that can benefit holistic goals, a marketplace must be arranged.

Build a Marketplace within 3 rounds

~ REUSABLE TOOLS ~

To further the technologies needed for a more sustainable future, humans need to utilize what they've already got. A Metal Recycler can help in this endeavour.

Build a Metal Recycler without letting the Geological Mineral Cards reach 0

~ REMEMBER HISTORY ~

The past holds many keys that could unlock solutions and answers in regards to a meaningful and peaceful future. For this, a museum is an excellent provider.

Build a Museum within 3 rounds

~ CLEARWATER REVIVAL ~

*For the continuation of life
clean water is essential.
Through human
infrastructure the cleanliness
of the water can be put at risk.
Take your responsibility to
counteract this problem.*

*Build a Wastewater Treatment
without letting the Water Cards
reach 0*

~ SHARING IS CARING ~

*As the human population grows,
other living beings risks to be
forced to the fringes our shared
environment, putting their ways
of living in danger. Mitigate this
by providing them with safe
spaces where they can live in
peace.*

*Build a NatureReserve without
letting the Wildlife Cards reach 0*

ROLEBOARD

Socialworker
Build - Place this Role Token on a Building to progress it by 1 Round.

Help - Give another Role an Extra action. Place this Role Token at the specified actions location.

Environmentalist
Build - Place the Role Token on a building to progress it by 1 Round.

Restoration - Place the Role Token by an Affected Deck of your choice. Gain back one Affected Card from its Discard Pile. This action does not work on empty Discard Piles.

Economic
Build - Place the Role Token on a Building to progress it by 1 Round.

Sustainable Sales - Place the Role Token on a Building. Remove one Affected cost of your choice from the Building if it's completed the same round. (This action will not progress a building).

Technician
Build - Place the Role Token on a Building to progress it by 1 Round.

Weather Prediction - Place the Role Token next to the Event Deck. Look at the top Card in the Event Deck and put it back on top or at the bottom of the Deck. If the Event Card is "Technical Failure" you have to place it at the bottom.

2. PLAN YOUR MOVES
